

Pitch

iRadar Infoday

21/11/2023

SME with over than 20 years of experience in the health sector and a proven track record in developing software platforms for R&D projects.

Value my organization can add to a strategic partnership/consortium

- Expertise in developing PCP projects (leading) and H2020 projects (partner):
 - ROSIA PCP (phase 1)
 - iPROCURESECURITY PCP (phase 2)
 - STARSPCP (phase 2)
 - Coperia (regional R&D)
 - HUTER (H2020)
 - CHAIMELEON (H2020)
 - Etc.
- Dedicated innovation team for developing innovation projects (including software developers, software architects, data scientists, PhD in sciences, etc.)
- Experts in interoperability in healthcare systems and standards (HL7, SNOMED, DICOM, OMOP...)
- Previous experience in AI and antimicrobial resistance projects:

Anti-Superbugs PCP, phase 2 and invited to phase 3

R&D project aiming to develop AI algorithms for antimicrobial infection risk predictions

BAHIA SOFTWARE

What sort of complementary partnership are you looking for?

- Rapid MDRO Detection System
- Complementary experts in the field of antimicrobial resistance detection
- Open to explore collaborations

Which tender(s) / Markets are you interested in participating?

- We are open to participating in all iRadar tenders. Pending final tender publications to make decisions.
