Preventing Respiratory Infections in Hospitals

Respiratory Health matters

28%

of hospital staff take sick days due to flu ¹

< 40%

of staff comply with resp. hygiene policies ²

1'300'000

hospital-acquired respiratory infections ³

Resmonics AI enables Respiratory Hygiene in the Hospital

Infection Risk Assessment

Our sensor **detects and analyzes respiratory symptoms** in rooms to spot **first signs of infections**.

1 2

Live Action Prompts

Localized, risk-based warnings trigger **up to 15x more actions** ⁴ than conventional action recommendations.
